### THE POWER OF CHOICE

You use electricity every day. It powers your alarm clock, your lights, your coffeemaker, your television, your computer. That's a lot of power. But did you know that you have the power to choose where that electric comes from?

Many states in the U.S. have started deregulating the generation of electricity, allowing you to choose where you buy your power.

Choice in electricity has created new energy benefits to customers, including reduced monthly bills and options to select greener rate plans.

### IT'S SAFE TO SWITCH

Enrolling with Viridian is safe and easy. Your local utility will continue to send the bills and deliver the electricity to your home or office. The only difference you will see is Viridian's name and low rate listed on the bill.

- Affordable, greener energy
- Reliable delivery and service provided by your local utility
- No contracts, no setup or cancellation fees
- Enroll online or by phone in less than 5 minutes.

### MAKE A DIFFERENCE IN YOUR COMMUNITY

Viridian will make a monthly contribution to Pass It Along of \$2 per month/per enrolled account. So tell all your friends and relatives to switch today and Make A Difference in your community.
